VOL 30 BLOOMSBURG, PA., FRIDAY, APRIL 26, 1895. NO 17

COUNCIL PROCEEDINGS.

An adjourned meeting of the town council was held on Thursday evening, 18th inst., all the members present.

Mrs. Oberender appeared and requested Council to take steps to abate the nuisance in the alley near her premises on Catharine St.

C. W. McKelvy was authorized to renew the insurance on Town Hall when the old policy expires on May 15th.

Building permits were asked for as follows and taken under consideration by the President: James Rauch for house on West Third St.

Geo. Lemon for house on the Armstrong addition.

Dr. Harter for house on Seventh Street.

The following permits were granted;

To Paul E Wirt for retaining wall and house on First St.

To N. J. Hendershott to unload stone and sand in front of his drug store building for the purpose of repairing in the rear.

To Dr. Arment for addition and porch to house on Fifth St.

Dr. Harter also asked Council for permission to establish a new curb line in front of his East Street residence, so as to run the water off better &c. This matter was referred to Committee on Highways.

Mr. Wilson spoke of a crowd of young fellows who congregate on the street corners at night, especially on the corner of Third and Market streets, and requested Council to instruct the officers to use strict measures to disperse the crowd.

Complaint was made of a nuisance on the premises of B. F. Taylor, corner West and third, caused by rubbish and offal. Council ordered that such places be cleaned up and all ash piles and other accumulations hauled away out of the alleys without further notice or delay.

Town Treasurer J. H. Maize appeared and presented his bond in the sum of $15,000 with Grant Herring, F. W. Redeker and C. H. Campbell as sureties. The bond was accepted.

Solicitor Little stated that in the matter of the Belt Line RR, on Seventh street, he saw Mr. Rhawn one of the attorneys for the Railroad Co., and he said the rails would be taken up and the street left in good condition in due time, and that the Committee on Highways could be on hand and superintend the work. Mr. Little suggested that the work be done before May 1st. As to the Oak Grove matter he was not ready to report at present.

C. C. Peacock, by request of Paul E. Wirt, presented a release for a certain piece of ground to be used as an alley near his place on First street and also an Ordinance vacating the old and making the new alley. Gorrey moved and Wilson seconded that the ordinance be accepted, providing Mr. Wirt pays for publishing the same. Carried.

Mr. Peacock further stated that he would like to have the sewer extended from Jefferson street to Railroad. Referred to Committee on sewers.

Samuel Thomas asked permission to raise his pavement on East street. Referred to Committee on Highways.

C. B. Ohl and others entered complaint about a lot of boys who congregate under the electric light out East street almost nightly and insult people as they pass.

Mr. Wilson suggested that the street Commissioner change about in employing laborers and not keep the same ones on all the time.

G. M. Lockard, chairman of Finance Committee, handed in their report.

The report was lengthy, and we do not give it in full, but the following is a summary statement of the probable liabilities and the probable assets of the town for the current year at a nine mill rate:

SOURCES OF ASSETS:—	
Licenses for shows	$ 205.00
Over due duplicates $5968.00	
Fines	
Sewer attachments	8.00
Taxation	16500.00
From issue bonds	
Liquor licenses	1240.00
Due from former street opening $642.71	
	$17,945.00
LIABILITIES:—	
For highways	$3280.03
Sewer	1102.00
Fire department	225.00
Town Hall	225.00
Printing	175.00
Miscellaneous	1000.00
Police and Constable	900.00
Salaries	425.00
Street light	4350.00
Interest on bonds	1400.00
Interest on coupons	199.62
Bonds maturing	3095.00
Water expenses	1050.00
	$17,466.00

The above statement don't include the outstanding town orders $11,412 50
Nor orders which have not been issued..... 1000.00

$12,412.50

The Finance Committee, in order to inform the Council of the probable amount of money which will be required for the use of the town during the current year, present the following report and recommendations:

1st. That prompt provision be made for the prompt and speedy payment of all debts contracted by the present Council for labor on highway repairs, and the current expenses of the town including water, street lighting, sewer extension, police services, salaries, printing, miscellaneous, etc., and that no orders be issued for such unless funds shall have been furnished for their certain redemption on demand.

2nd. As to the indebtedness of the town as evidenced by outstanding orders, whether bearing interest or not, or of any other kindred indebtedness, that the same be provided for (if there is no legal hindrance) by an issue of bonds bearing a low rate of interest, the proceeds of which shall apply to such former municipal indebtedness. (Such action can however be delayed for some time) this recommendation has reference to damage cases that are pending or in litigation now.

That all moneys received for the town shall be itemized and entered under the head from which it is collected from and not estimated.

3rd. That the money receivable during the year shall as nearly as may be, appropriated for current expenses, mentioned in the first recommendation, the payment of interest on present bonded indebtedness, and to such other public improvements as may be ordained by the present Council. The lowest rate of taxation consistent with an economical administration of the town's affairs.

4th. Should the Council ordain the opening of new highways, involving large amount of indebtedness for the improvements as a permanent matter, provision should be made by an issue of bonds or by an extension of time for the payment thereof, rather than have such consideration to enter into the fixing of the tax rate for the current year.

5th. The present indebtedness of the town including the floating indebtedness that is represented by outstanding orders aggregates over ($50,000) fifty thousand dollars, the assessed valuation of the town amounts to two million dollars ($2,000,000) so that the indebtedness exceeds already the limit prescribed by the Constitution, and the present Council even if in contemplating increased expenditures by street opening and other required improvements will find itself embarrassed, because of the prescribed limitation of indebtedness, and the Committee on Finance therefore would also recommend to the Council a submission to the vote of the people, to increase the rate of per cent. on the bonds to obtain necessary funds to carry on the requirements of the question of an increase of indebtedness and liquidate the floating debts. Or in other words, to take in consideration the propriety of an increased indebtedness with a proper limitation.

The President complimented the committee and said it was the best report the Council had probably ever had.

Tax rates were proposed as follows: Gorrey 7 mills, Knorr 8 mills, and Kester 9 mills.

President Creasy, who had visited Shickshinny, spoke of the Electric Light plant there and was very favorably impressed with the way the Town run the plant and obtained good light at a very low cost.

On motion of Gorrey and Knorr the Committee on Fire and Water is instructed to meet the Water Co., and see if the Town cannot get a reduction for water for fire protection.

Board of Health is directed to notify H. C. Hoofnagle to remove nuisance such as manure, &c from his lot between East and Catharine Sts. Same to be done within five days.

M. C. Woodward, the old tax collector, is to be notified that he must settle his duplicate at once.

Adjourned.

Within 60 or 90 days the Shamokin—Mt. Carmel Electric Railway company will put on its line a special car that will be used for express. The car will be a large one, of two 100 horse power, and will be run every two hours from 6 o'clock p. m., between Shamokin and Centralia.

T. H. B. Lyon of Mahanoy City, has been appointed Judge of the Orphans' Court of Schuylkill county, by Governor Hastings.

REV. W. C. LEVERETT.

If the congreggtion of St. Paul's Church can procure a rector who will fill the place of Rev. W. C. Leverett. whose resignation took effect on the 15th inst. they will indeed be fortunate. Mr. Leverett came here in December 1886, being called here from Carlisle, where he was rector of the church for twenty years. He found St. Paul's church with a debt resting upon it. This was soon paid, and since then the church tower has been completed, a chime of bells placed therein, a Parish House erected, the interior of the church painted, decorated and refurnished, cement pavements laid around the entire property, a vested choir organized, and the congregation considerably increased. He leaves the parish with practically no debt upon it. The bells, the tower, the Parish House furniture, and the new chancel windows were supplied through the liberality of individuals, and the remaining improvements have been made by the efforts of the general congregation, inspired by the rector. Perfect harmony has prevailed and the ill health that led Mr. Leverett to tender his resignation is universally regretted. He is a man of great tact, of culture and education, and was always ready to meet every emergency that might arise, and to settle every question in a manner satisfactory to all concerned. He has had the love and respect of all his people, and of the entire community. His pleasant greeting and hearty handshake for young and old, whether of his own church or not, with his many other charming characteristics, have made him very popular with all who know him. His manner of conducting the service is dignified and impressive, and his preaching is earnest and comes from the heart.

In the Diocese Mr. Leverett has filled responsible positions. He has been President of the Standing Committee for twelve years; has been several times elected one of the clerical deputies to the General Convention; has been Archdeacon, and in other ways his ability and worth have been recognized.

He and his estimable wife and family have determined to make Bloomsburg their home, and about May 1st. will remove from the Rectory to Normal Hill. They will undoubtedly find that their lot is cast among friends, for the services they have one and all rendered, and the influences that they have exerted in the parish and in the town, will ever be gratefully remembered.

ANTI-TOXIN CURES DIPHTHERIA.

Anti toxin was used for the first time in this section, by Dr. Bierman in the case of Mabel, the five year old daughter of H. G. Supplee, on Sunday, the 14th inst. The child had an undoubted attack of diphtheria, and was growing worse, and as the Doctor considered her recovery doubtful he obtained the consent of the parents to use anti-toxin. The first hypodermic injection was given at noon, when the temperature was at 101. In two hours it rose to 102, and in the evening it had fallen to 100. The membrane began to loosen and come off, and the child rapidly improved. On Saturday she was practically well. The result of this test is certainly very satisfactory.

THE LOAFERS MUST MOVE ON.

On Sunday evening Constable Laycock patrolled the vicinity of Third and Market, and compelled the gangs of men and boys that have been accustomed to gather there, to "move on." These crowds of loafers at that corner, and at the First National Bank, especially on Sunday nights, are an intolerable nuisance, and it is to be hoped that the town authorities have taken hold of the matter in earnest. The experiment has been tried before, but never with success, as the crowds leave one corner and at once locate on another. There is an ordinance prohibiting the gathering of such gangs on the streets, and a few arrests for its violation would have a very healthy affect. This will surely be done, unless it can be broken up by the police.

The following letters are advertised April 23, 1895. J. W. Campbell, Mr. J. R. Cressinger, Miss Annie Hennesy, New York Ansto Co., Peter Walter, Mr. Charles Whitmeyer. Will be sent to the dead letter office May 7, 1895.

CASPER THOMAS UNDER BAIL.

The result of the habeas corpus hearing before Judge Ikeler last Thursday, in the case of Casper I. Thomas for the killing of Walter Hayes, was that the defendant was held to bail in the sum of $1,000 for his appearance at court. Josiah Ralston, W. H. Gilmore, C. S. Thomas, J. R. Fowler and I. D. White became his bondsmen.

At the hearing, District Attorney Hanley represented the commonwealth and Messrs. Little and Robison the defendant. Dr. Gardner testified to the character of the wounds on the body, and stated that if the artery in the leg had been pressed so as to stop the flow of blood within three minutes after Hayes was cut, his life could have been saved. He was dead in six minutes after he was stabbed.

Frank Miller, one of the coroner's jurors, testified to the statement made by Thomas before the coroner, and Harry Kline told about hearing calls for help, and finding Hayes dead in front of the jail. Counsel for the defendant asked that he be discharged, but Judge Ikeler said it would be very hasty action to discharge him the next day after the killing occurred; that Hayes was killed after dark, with no witnesses present, the only direct evidence being that of Thomas himself. Human life is too sacred to be treated lightly, and the case ought to be investigated by a jury.

Some people thought that Mr. Thomas should have been discharged, but the only question raised by the habeas corpus was whether the prisoner could be admitted to bail or not. The court had no power to try the case on its merits, and acquit the defendant of the charge.

The funeral of Walter Hayes was held at Baker's undertaking rooms on Friday afternoon at two o'clock, the services being conducted by Rev. P. A. Heilman. There was no singing, and in his remarks, based upon the text, "The way of the trangressor is hard," he addressed the living, and made no allusion to the deceased, nor to the cause and manner of his death. The body was buried in Rosemont, the only relatives present being a brother, and the wife whom Hayes deserted in Williamsport some time ago.

The Pennsylvania Teachers' Association has selected Mount Gretna as the place of its next meeting, on July 2, 3 and 4 next. It is an attractive place, easily reached and central. It is within an hour's ride of Harrisburg, Lancaster and Reading, and but a trifling distance from the flourishing town of Lebanon.

Col. J. G. Freeze was elected Senior Warden, and C. F. Knapp Junior Warden, by the Vestry of St. Paul's Church on Easter Monday evening, instead of vice versa, as announced in our last week's issue.

MAN AND WOMAN.

The Difference in the Quality of the Blood of Men.

Scientific observations are not yet carried far enough to determine all the essential differences, but they are sufficient to overthrow Mr. Herbert Spencer's inferences that woman is "undeveloped man," and anyone else's inferences that man is undeveloped woman. But while the science is in the present state, the acknowledged differences of the sex will be seized upon by one side as an argument for woman's suffrage, and by the other as a reason against it. Take for instance, metabolism. The difference in the quality of the blood of men and women is fundamental and of vast importance. Men have more red corpuscles in their blood than women. The functional power of the blood is, however, measured by the amount of haemoglobin, and women average 8 per cent. less haemoglobin than men. The specific gravity of the blood is higher in men than in women. Nor are these mortifying facts offset by the discovery that the plasm in women has a somewhat higher specific gravity than in men. There is a compensation in the observation that in old women the specific gravity rises, and this rise may be a factor in the greater longevity of women, a direct bearing upon the result that once a voter she would be longer a voter. It is admitted that women are more precocious than men, and that their development is earlier arrested.

Continuing the same subject, we find that the heart of the male animal beats more slowly than that of the female, depending greatly upon the animal's size: The pulse rate of the elephant is 28; of the horse, 42; of the dog, 75; of the mouse, 120. Women have a more rapid pulse-beat than men; after the age of seven their beats average about ten in the minute more than men. This approach of the pulse rate of the woman to the mouse has no scientific connection with the fear of woman for that harmless animal—a subject which has not received the attention it deserves. Like the matter of respiration, it may have something to do with clothing. The "vital capacity," as the breathing power is called, is decidedly less in women than in men. Man's respiration is diaphragmatic; woman's is costal. Men produce more carbonic acid than women, and one result of this difference is that women have a less keen need of air; they have a better chance of surviving exposure to charcoal fumes. From this we might jump to the conclusion that women are better adapted to bear the air of a political caucus. But this would be a hasty generalization on an insufficient basis, for we do not yet know what the normal woman is. Recent investigations of civilized women and uncivilized—that is, to put it roughly, those who wear and who do not wear corsets—is leading to a revision in regard to the difference of sexual breathing in normal conditions. The evidence goes to show that the sexual differences in respiration are not natural, but are the results of the artificial restrictions of dress usually worn by women. If this is so, the suffrage movement will take on a wider sweep. The object of the sex being vital capacity for public affairs, it will be argued that the corset stands in the way of the ballot. There are other considerations quite as important as these, which cannot well be handled except in a scientific physiological treatise. There is the fundamental difference in the voice and the thyroid gland. This does not affect the mere act of voting by ballot, but it has relations to other functions of public life, civil or military. And this is not so easily changed, even by a long process of selection, as the respiration. The affectability of women and their emotionality will also have to be discussed. This makes women angels, and makes them the other thing. It may decrease in social evolution, but it is physiologically fundamental, and can never be reduced to the male standard, and perhaps it is not desirable that it should be.—Charles Dudley Warner in Harper's Magazine.

Not a Lover of Discipline.

The Chinese sailor is not a lover of discipline. He prefers perfect freedom, especially when the question of leave is concerned. When Capt. Lang had charge of the Chinese Navy he discovered this weakness, and it gave him a considerable amount of trouble. He found ordinary methods of enforcing regularity utterly useless. Officers and men alike showed a total indifference to his orders where leave of absence was concerned.

Following the example of the Emperor of Germany, he determined on a series of surprise visits, and on one of these occasions he found that many of the officers and men were on shore without leave. Determining to enforce discipline at any cost, he ordered all the delinquents to be placed under arrest when they returned. This was too much for the easy-going Chinaman. That night every man jumped overboard and went home, utterly disgusted with the service.

Dislike Their Professions.

The almost universal disinclination of parents to bring up their children to the trades or professions they themselves follow would suggest a large number of workers in uncongenial fields. You ask a dressmaker if her daughter is likely to take to that line of work, and nine times out of ten she will answer: "I'd rather see her dead than slaving away her life as I do; no, ma'am, she won't be a dressmaker if I can help it."

And the theatrical people usually say: "We keep the children away; they seldom see a play. We don't want them to take to the stage. It's too hard a life."

The doctors seldom encourage their sons towards pills and plasters. So it goes, and I wonder if it's because what you know seems hard and everything else seems easier because you don't know.—New York Recorder.

The Second Marriage.

A quiet wedding either at home or church is in every way the most suitable for a woman about to be married the second time. And she should not, under any circumstances, wear either a white gown, a veil or orange blossoms. A costume of pale gray or a delicate lilac would be both pretty and suitable.—Ladies' Home Journal.

A QUESTION OF COLLARS.

The Blond Young Man Was Not to Be Driven Into a Bargain.

A lily white blond young man entered a well-known haberdasher's a few days ago to purchase some collars. After examining the various styles, from the low water mark to the twenty-eight story flat, he selected two at twenty cents each.

"They are three for fifty cents," said the clerk.

"Well, give me two."

"Better take three for half a dollar," repeated the clerk.

"I only want two."

"Yes, but two cost forty cents, and you get three for fifty—one for a dime, see?" said the clerk.

"Can't I buy two?" anxiously inquired the blonde young man; "I only want two."

"Of course, but you save ten cents by taking three," responded the clerk. "I'll just wrap up three for a half a dollar."

"Look here; I know what I want. You wrap up two collars."

"But, sir——"

"I want two collars, and I have forty cents to pay for them, and——"

"You lose a dime—three for fifty," insisted the clerk, as he reluctantly wrapped up the neckwear.

"I don't care a d——," howled the blond young man, in a rage. "I know what I want—two collars, a beer and a nickel to pay my street car fare home. See? Now, can I get two collars for forty cents, or not?" and the blonde young man foamed at the mouth in his righteous indignation.

He got the two collars. The clerk swooned. He hadn't thought of the "beer and the street car."

He Got a Move On.

A Confederate soldier, after a battle of Antietam, and when his regiment was on the retreat, threw his musket on the ground, seated himself by the roadside, and exclaimed with much vehemence:

"I'll be dashed if I walk another step! I'm broke down! I can't do it!" And he sat there the picture of despair.

"Git up, man!" exclaimed the captain; don't you know the Yankees are following us? They will get you sure."

"Can't do it," he replied. "I'm done for. I'll not walk another step!"

The Confederates passed along over the crest of a hill, and lost sight of their poor, dejected comrade.

In a moment there was a fresh rattle of musketry and a renewed crash of shells. Suddenly he appeared on the crest of the hill moving along like a hurricane and followed by a cloud of dust. As he dashed past his captain, that officer yelled:

"Hello! thought you wasn't going to walk any more?"

"Thunder," replied the soldier. "You don't call this walking, do you?"—War Relics.

The Japs as Jokers.

The Japanese are a very polite people, but they sometimes like to play a joke in a roundabout Oriental way upon the men in the West. In the days of the Second Empire Baron Gros was sent to Japan to demand the opening of certain ports to French commerce. Among the rest he named to the Japanese Ministers a certain city. The Japanese funcionaries smiled so broadly when he preferred the request that the French Ambassador asked them to tell him what gave them so much amusement, but instead of answering the Japanese Ministers said:

"We will open the port in question, my lord, if France in turn will open a certain port to us."

"What port is that?" asked the Frenchman.

"The port of Liverpool."

"But, you excellencies"—laughing—"Liverpool is not a French port, but an English one."

"Yes," answered the Japanese, "and the port you named is not in Japan, but in Corea."

The French Ambassador was compelled to admit the joke was against him.—Tid-Bits.

A Reason at Last.

Woman—If there is one word in the language more than another that I am heartily sick and tired of—a word that is the very block and obstacle in the path of argument or reason—a word that seems to me to have been created out of nothing to fill a vacuum that never existed—a word that all men condemn, and no woman can look upon except as a constant reminder of her innate lack of logic, that word is "because," and I wish to goodness it were expunged from every dictionary in the world.

The Man—Why?

"Oh—er—er—er—because. — Detroit Free Press.

The Fish First.

A Scotch laird recently invited an English friend to stay with him for some fishing. One day the Englishman, who was a novice at the sport, hooked a fine salmon, and, in his excitement, slipped and fell into the river.

The keeper, seeing that he was no swimmer, hooked on to him with the gaff, and was about to drag him ashore when the laird called out:

"What air ye about, Donald? Get haud o' the rod and look to the fash. Ma friend can bide a wee, but the fash winna!"

Over Generous.

Mrs. Mullaney—Sure, mum, there isn't much chance av a merry Christmas fer a woman as has siven childer an' no husband an' not a blissed cint in the house.

Mrs. Westend (impulsively)—No husband! Oh, you poor thing! I wish I could give you mine!—Smith & Gray.

A Tough.

"That man Black, who plays the heavy villain in the new drama must have a wonderful constitution."

"Why?"

"He smokes an entire box of cigarettes in the first act and doesn't die until the last act."

A Preference.

Sunday School Teacher—I suppose you pray for your daily bread every day at home, don't you, Emmie?

Emmie—Oh, yes, for we like it fresh. —Judge.

PEOPLE OF NOTE.

The English admirers of Gilbert White, of Selborne, have erected a queer monument to him in that village. It is a hydraulic ram that forces water into a reservoir which supplies the village with water.

A beautiful granite monument has recently been placed over the grave of Doctor B. F. Stephenson, the founder of the Grand Army of the Republic, in Rosehill Cemetery, near Petersburg, Ill. The monument will be unveiled sometime this fall.

HARRISBURG LETTER.

Fight Between Friends and Opponents of a Greater Pittsburg.

CONGRESSIONAL APPORTIONMENT.

A Bill to be Prepared by the House Committee—Uncle George Lawrence Will Ride Home on Horseback at the End of the Present Session.

(Special Correspondence.)

HARRISBURG, April 22.—There is liable to be trouble in the house to-morrow when the Flinn greater Pittsburg bills come up on second reading. The resolution fixing the special order for their consideration read that they should be taken up just after the reading of the journal, not later than 11 o'clock. The special order for the consideration of the Smith bill for the distribution of school funds was fixed for 11 o'clock, and there is where the hitch comes in. The lobby of the capitol will swarm with the friends and opponents of the three annexation measures. Representative Merrick, of Tioga, the legal oracle of the grangers, has been selected to make the fight against the bills. He will be seconded by Representatives Mansfield, of Beaver, and Richey and Tillbrook, of Allegheny. Mr. Merrick has a few old scores to pay off with the boomers of a greater Pittsburg, and this is one of the ways in which he proposes to get even.

The Pittsburg people claim that their bills must be considered until disposed of, and the Smith bill friends insist that when 11 o'clock arrives the consideration of the Flinn bills must be stayed until the school fund bill is disposed of.

A decision on this point made in the house in 1861 by Speaker Elisha W. Davis, that has never been disputed, says: "The speaker decided that the house, having by a two-thirds vote determined that it would, at a certain specified hour, upon a particular day, proceed to the consideration of a certain question, and the time having arrived, the house must proceed to its consideration, and any other business before the house stands postponed until the question is disposed of by the house, either by adoption, rejection or postponement."

The Flinn bill people clearly have the decision on their side. The African in the woodpile is that the consideration of the Flinn bill may consume the entire day, and the other special orders will be shut out and cannot go on the next day's calendar.

The School Appropriation Bill.

The Smith bill proposes to distribute the school appropriation by scattering one-third according to the number of teachers employed for the full term and the balance on the basis of the number of taxables. Under this plan Philadelphia would receive over $100,000 less than its present share, and other large cities a corresponding decrease.

The members from the rural districts and small towns are pushing the bill. They argue that the cities should make concessions to the country districts, where the people lack opportunities and facilities to learn. In the large centers of population it is easier to gain an education. The Philadelphia delegation is a unit against the measure. Representatives Fow, Stewart and Hicks have given the subject much attention. They contend that it is not fair to the populous cities, whose corporations and industries pay the bulk of the state taxes, and where the citizens take pride in improving their schools, to perpetuate the miserable system of education in the country—that is, short terms and low salaries to teachers.

Chairman Niles, of the house judicial apportionment committee, has fixed to-morrow for a hearing on the memorial of J. W. M. Newlin, the Philadelphia lawyer who charges Judge Gordon, of that city, with holding a secret court in violation of the bill of rights. Both sides have been notified to be present. The investigation will be conducted by a sub-committee of five. Representative Kunkel, of this city, is chairman.

A meeting of the house congressional apportionment committee will also be held tomorrow evening to prepare a bill. The measure will practically be the same as that of 1893, and will give Philadelphia and Allegheny each an additional member. The house ways and means committee will meet the same evening to consider finally the new revenue bill. It is generally conceded that the bill will be brought out of committee and killed on second reading. A special calendar will be made for the revenue, apportionment and appropriation bills.

Will Criticize Treasurer Jackson.

A resolution will be offered in the house this evening by Mr. Bliss, of Delaware, asking for a more definite answer from State Treasurer Jackson as to the probable amount of revenue which could be derived during the next two years from a tax of sixteen cents a barrel on malt liquors brewed in the State. In reply to a resolution to this effect, Colonel Jackson sent a communication to the house last Friday in which he stated that he was not in possession of the data necessary to make such an estimate. Mr. Bliss is angry, and intends to rake the state treasurer in the resolution. He says Colonel Jackson could easily have obtained the information about the beer tax had he desired to be accommodating.

In the statement referred to above Treasurer Jackson reported as follows:

Balance in the treasury March 31, 1895, less advances made to the legislature, $3,284,805.59; amount due on account of appropriations for 1893, and which includes the common school appropriation balance for 1895 of $5,500,000, $7,370,321.40. Is this total sum there are appropriations to five charitable associations, and to the soldiers' orphans' industrial schools, of which no part has been drawn from the treasury, amounting to $103,500.

The estimate of the ordinary revenues of the state for the current year, ending Nov. 30, 1895, amount to $9,825,100. From this is to be deducted $369,371.50, transferred to the sinking fund, leaving an estimated revenue of $9,455,728.50, a total for the two years ending Nov. 30, 1896, of $18,911,457.

In reply to the question as to the probable amount of revenue which could be derived during each of the next two years from a tax of sixteen cents per barrel on malt liquors brewed in the state, State Treasurer Jackson says he is not in possession of the data necessary to make such an estimate. Representative Fow estimates that such a tax will raise $1,250,000 revenue annually.

An effort will be made during the coming week to get the revenue bill prepared by the tax conference before the house. The ways and means committee will meet tomorrow evening for the consideration of the bill in executive session, and Chairman Riter hopes to be able to report it by the latter part of the week or early next week. The country members will make a determined effort to get it through, and in order to meet the charge that the bill will not produce enough revenue, it may be so amended as to postpone until next year the time when the provision for turning over to the counties certain revenues is to go into effect.

Uncle George's Big Horseback Ride.

Uncle George Lawrence, as he is affectionately called by his friends, served in the legislature before a majority of his present colleagues were born, and it is a common sight to see the veteran surrounded by his young friends relating incidents of his early public services. When he was first elected to the house, fifty-two years ago, the transportation facilities were extremely poor, and he made the journey of 210 miles from Monongahela City, in Washington county, to Harrisburg on horseback. Many subsequent trips were made the same way by the stalwart young legislator before the railroads superseded the old sorrel horse.

The old man has frequently expressed a desire to ride once more over the old route, and as he has an idea that this will be his last term at Harrisburg he has determined to gratify the longing at the close of the session and return to his home in the old way. A number of the members have arranged to present their venerable colleague with a horse and trappings, and a delegation of them will accompany him on the journey. The route after leaving Harrisburg will be along the old state road, through Cumberland, Franklin, Fulton, Bedford, Somerset and Westmoreland counties to the waters of the Monongahela. Arrangements will be made to give the veteran statesman hearty receptions in some of the principal towns along the route.

The oil excitement has struck the members of the legislature, and they go to Representative Al Smiley for pointers, and what he doesn't know about oil is not worth knowing. He laid the first pipe line ever laid, and has made and lost several fortunes. While on his way to Harrisburg from his home last Monday he stepped into the Exchange in Pittsburg. After he had taken his bearings he instructed a friendly broker to buy him a little oil. Thirty minutes later Al was ready to leave, and told the broker to sell. The latter got his commission, and as the Clarion county statesman left the Exchange he shoved $180 into his pocket with a smiling remark: "That's my week's expenses, anyhow." Smiley is still in oil, but that was merely a little sample of picking up $180 in half an hour's time on nothing.

Northampton's Health Representative.

Dr. T. C. Zulich, a son of Representative C. B. Zulich, of Northampton, has been selected to represent the state board of health in that county.

Very few bills of any importance have so far passed both branches of the legislature, and there are still about one thousand bills to be considered, among them being all the appropriation, the revenue and apportionment bills.

The senate is plodding along in the same easy going manner that has characterized its proceedings since the opening of the session. Its calendar is about cleared and if necessary the senators could go home for good the close of the week. The senate has the happy faculty of working without a quorum. This was done last Thursday. The senate appropriation committee will be ready to report a large amount of bills the last of the week. The sub-committee have about completed a tour of the various state charitable and penal institutions asking aid.

Saved from Life Imprisonment.

HARRISBURG, April 19.—The board of pardons at last night's meeting recommended pardons for three murderers—Joseph Buecher of Philadelphia, John Bradford of Allegheny and Samuel Walker of Allegheny. Buecher killed Dennis Crowley in Philadelphia five years ago. Crowley had been intimate with Buecher's wife, and then taunted the wronged husband. On the trial Buecher was convicted of first degree murder and sentenced to death, but this sentence was commuted to life imprisonment. The other two were serving long sentences for manslaughter. Pardon was also recommened for Thomas H. Booz, of Berks county, aggravated assault and battery. Murderer Weerling, of Allegheny, was refused a pardon. The case of Murderer McDonald, of Crawford, was held under advisement, as was that of Hugh F. Dempsey.

A Septuagenarian Suicide.

LANCASTER, Pa., April 19.—Joseph Blotter, who, until recently, was employed by Captain Hinkle, a hotelkeeper at Wrightsville, was found dead along the York turnpike, near Wrightsville, with a bullet wound in his cheek and another in the abdomen. A pistol with two chambers empty was found on his person, as was also a letter in German stating that he did not wish to live any longer. He was 70 years old, and fretted over the death of Captain Hinkle.

The Full Extent of the Law.

LANCASTER, Pa., April 18.—M. L. Dellinger pleaded guilty to disseminating obscene literature among minors and to printing the same. In passing sentence, the court said to Dellinger that the punishment provided by the law was inadequate for the great crime committed, and he was sorry he could not impose a more severe punishment. The court then sentenced Dellinger to the Eastern penitentiary for three years and to pay $100 fine.

Thieves Steal Dynamite.

LANCASTER, Pa., April 22. — Thieves broke into the powder house of Isaac Dillers' Sons and Reilly Brothers & Raub, about a mile outside the city, and stole about a hundred pounds of dynamite. The building contained five tons of dynamite and a carload of powder, and as the robbers used great force in gaining an entrance into the building the escape from a terrible disaster was remarkable.

Faith Failed to Cure.

BETHLEHEM, Pa., April 19.—Mrs. Francis Frey, aged 55, died yesterday of heart disease. She had been a sufferer for some time, and two weeks ago was persuaded that prayers which were offered for her did more good than medicine. She thereupon dismissed her physicians and accepted the faith cure. She belonged to the Mennonite church.

May Solve a Murder Case.

SHENANDOAH, Pa., April 22.—John Shock and his wife were taken into custody and removed to Flushing, N. Y., where they are wanted as imported witnesses in a murder case. John Watzuki and his wife were poisoned there six months ago, the latter dying. The Shocks are supposed to know something of the matter.

WASHINGTON.

From our Regular Correspondent.

WASHINGTON, April 21, 1895.

President Cleveland's Andrew Jackson firmness in standing by his financial views is admired alike by those who agree with those views and those who oppose them. There are timid democrats who say that an expression against the free coinage of silver was not polite, in view of the knowledge that many democrats favor it. Perhaps it wasn't, but Mr. Cleveland has never been a politic man. There is one of the reasons why he has never got along with the trimmers in the democratic party. His tariff reform message of 1887 was not a politic document, but it resulted in uniting the democratic party and in making tariff reformer synonymous with democrat, and is to day regarded by every democrat as one of the best things he ever did. Democrats admire courage, and no democrat will think less of Mr. Cleveland for having the courage to stand up for what he believes to be right, regardless of whether it be popular or unpopular with the party at large. He invites a contest within the ranks of the party, and is confident that when all the arguments which can be presented on both sides have been heard that an overwhelming majority of the party will endorse his views. He may be wrong. Other democrats have been wrong; but when he asks that the democrats come together and discuss this question in all its bearings before committing the party he is not unreasonable. A campaign of education is never one sided. Let every democrat hear what both sides have to say in coming discussions of the silver question, weigh the arguments as he would the evidence if he were sitting on a jury, and then decide which will be best for the country. Up to this time most of the talking has been done by one side.

Secretary Morton is always interested in everything connected with the food supply of the people; hence it is not surprising that he should be devoting his time and the power of the Department of Agriculture to heading off the extortion of the beef trust. If he had his way, and President Cleveland and the other members of the cabinet agree with him, the tariff of 20 per cent. ad valorum on foreign cattle would at once be abolished, but only Congress can do that. As the next best thing Secretary Morton has amended the rules of his department so as to admit Mexican cattle, after they have been inspected by our officials. Speaking of the result of this move Dr. Salmon, chief of the Bureau of Animal Industry of the Department of Agriculture, said: "It is guesswork to make an estimate of how many cattle will be brought from Mexico. There is no census of cattle in North Mexico. We have no figures to go by. Nor have we any accurate news as to what proportion of the cattle there are ready for slaughter. But what is known might encourage a belief that the number of cattle brought in from Mexico during the last month will be heavy. Once before we let down the bars to the incoming of Mexican cattle and within a month 25,000 were brought in. Probably the number will reach 100,000 this time." From the very marked variations in the retail price of beef in different cities Secretary Morton is inclined to believe that the retailer is squeezing the consumer harder than he himself is being squeezed by the trust. He is now making an investigation of the whole business. He said: "My belief is that a beef ring exists among the big slaughterers. The difficulty now before us is how to prevent its continuance. If anything is done the papers will have to do it. The Sherman anti-trust law will neither punish nor protect. We've gone all through it with a microscope, and it is clear that it was made to be evaded and gone around. There is nothing left but the whip of public opinion and that must be vigorously wielded by the papers."

Hon. Dorman B. Eaton, of Ohio, who claims to have drafted the civil service law, and who was the first Civil Service Commissioner, is in Washington. He paid the President a high compliment when he said: "For the courage President Cleveland has shown in executing this reform, for his faithful adherence to the law, he is deserving of the highest praise. I am a republican, but on this question, as in his brave stand for a sound system of currency, Mr. Cleveland has shown himself such a true patriot that all questions of partisanship are lost sight of, and he deserves just as much credit from republicans as he does from his own fellows."

Attorney General Olney has filed a brief with the Supreme Court, against any rehearing of the income tax cases which does not include a rehearing on that portion of the tax declared to be unconstitutional by the late decision. If a rehearing is granted by the court it will hardly take place before October.

How a Woman Works for Her Sex.

(SPECIAL TO OUR LADY READERS.)

Seated at her desk in the bureau of correspondence, this wonderful woman opens her letters from all parts of the world. A few extracts from their contents tell the story.—

FROM IOWA. "I am in a very bad condition. My courses have stopped from catching cold, and the pain is fearful. I am all bloated up, and the pain in lower part of my body is terrible. My back and head ache all the time. What shall I do for it?" Miss I—, Des Moines.

FROM NEW JERSEY. Mrs. Lizzie DeCline, 224 Grand Street, Jersey City, relates her miseries resulting from womb trouble, from which she was relieved and cured by the timely use of Lydia E. Pinkham's Vegetable Compound. She ends her letter by saying, "I owe all to you."

FROM OHIO. Mrs. Newton Cobb, of Manchester, O., writes: "I used eight bottles of your Vegetable Compound, and I am happy to say it has cured me of painful menstruations and backache. My suffering every month was dreadful. The doctors gave me morphine to ease the pain; nothing to cure me. Oh, I want to tell every one what cured me! I wish every suffering woman would write and get your advice."

FROM ILLINOIS. Miss Jennie ——, Chicago, states that she is twenty-two years of age; occupation, saleswoman in large dry goods store. Constant standing has brought on womb trouble, the symptoms of which she describes fully. She says: "Help me if you can. There are several girls I know who have written to Mrs. Pinkham, and been cured by her advice and medicine."

FROM PENN'S'LV'N'A. Miss Mary Smylie, who resides at 2078 E. Susquehanna Avenue, Kensington, Phila., writes: "I am a working-girl, and must stand eleven hours every day. I have suffered terribly from painful menstruations and kidney trouble. At times my head was so dizzy I could hardly see. A friend recommended your Vegetable Compound. I am a different girl now: no more aches and pains. Oh, thank you, thank you!"

The above extracts from many hundred letters received daily by Mrs. Pinkham, at Lynn, Mass., go to show how easily ailing women can obtain advice and relief. Write to Mrs. Pinkham.

Lydia E. Pinkham's Vegetable Compound, the most successful female medicine known to the world, can be obtained of any druggist in the land.

CONSULTATION FREE.

Many years' experience has taught him that nearly all ailments can be cured or greatly helped. The diseases he treats are Consumption, all Bronchial Affections, Loss of Manhood, Crooked Limbs, Wry Necks, Barrenness, Scrofula, Salt Rheum, Syphilis, Eye and Ear Diseases, Skin Diseases, Neuralgia, Bright's Disease, Ulcers and Old Sores of every description, Rheumatism, either acute or chronic, Sick Headache, Epilepsy, Gastritis, Congestion, Canker, Tonsilitis, Deafness, St. Vitus' Dance, Impediment of Speech, Loss of Voice, Stuttering, Cancer of the Stomach, Piles, Jaundice, Constipation, Biliousness, Dysentery, Chronic Diarrhœa, Chills and Fever, Fistula, Bilious Colic, Paralysis, Heart Disease, Intestinal Worms and Liver Complaints.

However, it must be remembered that he will not undertake to treat all cases, *but only those* which he is positive can be cured or greatly relieved, and will tell you at once which, *if either*, can be accomplished.

DR. MacTAGGART is the only specialist this side of New York, Philadelphia and Buffalo, who makes an exclusive specialty of treating Chronic Cases and the Diseases of Women. Those who have been suffering for years should call at once and learn whether their ailment can be cured or not. No cases received unless they can be cured or greatly helped.

What Dr. MacTaggart

HAS DONE AND IS DOING.

The Doctor wishes the public to understand that he is not soliciting the ordinary run of cases, but desires just such diseases to treat that other physicians cannot succeed with or at least fail to cure. When you suffer from such *consult* HIM (consultation is free), have him thoroughly diagnose your case, and then what he tells you can be relied upon as a fact beyond refutation. Some may say, "Why go to Dr. MacTaggart when we have as good doctors here as anywhere?" Yes, so you have in their line of practice, but *not* in those specialties that Dr. MacTaggart is schooled and practiced in. In support of this unqualified assertion read his testimonials—not only read them, but investigate the truthfulness of them. Where are the physicians who can remove cancers without pain and cure it beyond peradventure? He does it. Where can you find another physician in Pennsylvania who can remove tumors of even 60 pounds weight without the use of the knife, without pain, and without leaving a scar? Dr. MacTaggart does it. What physician can cure fistulas without cutting or causing the least pain or soreness during treatment? Dr. MacTaggart does it successfully. These are golden truths—*golden* because it proves beyond dispute that the science of medicine in specialties particularly, is advancing with rapid strides far in the lead of the regular practioner. 1-18-1y.

THE COLUMBIAN,
Bloomsburg, Pa.

FRIDAY, APRIL 26, 1895.

The stalwart ex-congressman, Hon. Simon P. Wolverton, of Sunbury, headed a strong array of distinguished gentlemen who appeared before the house committee on appropriations last evening in behalf of the Mary M. Packer hospital to be erected in Sunbury. Mr. Wolverton was warmly greeted by his many friends on the Hill, who are pleased to know that his immense law practice is daily increasing, he recently having come off the victor in an important ejectment suit which netted him a fee of $30,000. Mr. Wolverton in the last session of congress was one of the most valuable members of the committee on judiciary general and ranked among the first of the great lawyers in that body. —*Patriot.*

It is becoming quite evident that the long depression in business affairs which was brought on by causes beyond control will be ended by causes quite as potent. Consumption has overtaken protection. The woolen mills, the iron mills, the cotton mills and their affiliated industries are running to supply orders. The contemporaneous rise in the price of raw materials and in the wages of labor are indications of permanent improvement. It is significant that as the financial and industrial distress of the past three years has not been confined to the United States, so in the recovery which we are now experiencing we are not singular or exceptional. All the commercial nations are participating in renewed trade activity, and there is good reason to anticipate a worldwide return of solid and substantial prosperity. —*Phila Record.*

MUST PAY INCOME TAX.

Commissioner Miller Decides Against the Coal Operators.

United States Commissioner Miller has forwarded to collector Herring of this revenue district an important decision relative to the income tax and affecting the profits of coal operators on their coal sales. The coal operators of this district, in which is embraced all the anthracite producing counties excepting Schuylkill, recently conferred with collector Herring as to whether profits realized from the sale of coal did not come under the heading of real estate income and therefore exempt from taxation, as decided by the Supreme Court. Collector Herring wrote to and had personal conferences with commissioner Miller on the question. The commissioners' decision rules that the coal profits are taxable.

The individual operators of the district, who number over one hundred, and also the big corporations operating in this district are disappointed over the decision and may take an appeal.

The decision will increase the estimated receipts from income tax in collector Herring's district about $75,000.

FATHER OF THE HOUSE.

Hon. George V. Lawrence Will Ride Home After Adjournment.

It is fifty-two years since George V. Lawrence first came to Harrisburg as a member of the Legislature. At that time the members from the western counties came here by the old stage routes, and some the entire distance on horseback, the latter method being a favorite with Lawrence, who in his young days was considered an excellent horseman. He often delights the members with reminiscences of the days he rode on horseback from Monongahela City, in Washington county, to Harrisburg, a distance of 210 miles, taking a week or more to make the journey. Since the days of railroading he has not been over this route, but has often expressed a desire to ride along and view the scenes of his younger days, and in this desire he is to be gratified at the adjournment of the Legislature, for the members have agreed to contribute and present him with a horse and outfit, and a delegation will accompany him on his return home.

His route after leaving this city will be through Cumberland, Franklin, Fulton, Bedford, Somerset and Westmoreland counties, and in the principal towns along the way it will be arranged to give the venerable member a hearty reception. This may possibly be the last time that Mr. Lawrence will serve in the Legislature, and his colleagues are anxious that his long and honorable career in public life may end in a pleasant way.—*Harrisburg Telegraph.*

An Example That Should Be Imitated.

Governor Hastings and the Republican Legislature of this State might, in one particular at least, have taken example from President Cleveland and the last Democratic Congress. If they had done so, the people of Pennsylvania would have been greatly benefitted.

The governor and his Legislature are enlarging the number of public officers and increasing their salaries, while President Cleveland and his cabinet have reduced the civil service expense by cutting off the offices at Washington by the hundreds. The Legislature is piling up the State expenses to such an extent that new sources of revenue will be necessary to pay them, while the Fifty-third Congress cut down government expenses more than $47,000.000, as compared with the appropriations of the last Republican Congress.

It is true that Pennsylvania is a rich State, but that does not justify the Governor and Legislature in robbing her taxpayers. They should follow the Democratic example of economy.—*Bellefonte Watchman.*

WORSE THAN SIBERIA.

The Horrible Treatment Accorded American Prisoners in a Mexican Coal Mine.

HOUSTON, Texas, April 22.—John H. Manley, a locomotive engineer, who recently escaped from the coal mines, about eight miles from Monterey, Mex., is in the city. He said to-day:

"Years ago I went to Mexico as an engineer on the International Road. About seven years ago we backed out of a siding and ran over and killed a Mexican peon. At the next station our crew were arrested and thrown into prison. We were refused intercourse with friends. Then, without any trial, we were taken to mine No. 9 near Monterey. There are still twenty or thirty Americans there, and we could not communicate with the outside world. One night last January our guard got drunk on smuggled whisky and I took a chunk of coal and smashed in his head, summoned my companions, William Hughes, my fireman, William Clark, the conductor, and Frank Godwin, and William Stillwell, the brakemen, all Americans. We slipped up behind another guard and knocked him in the head and dropped his body to the bottom of the shaft—222 feet. Taking the pistols off the dead guards we struck for the mountains and traveled only by night, with stars our guide, avoiding all villages and railways. We walked three weary months, living off roots, herbs and an occasional rabbit."

About twelve years ago, he stated, he saw John Reynolds, a 16-year old boy from Syracuse, N. Y., shot for having killed a Mexican in self defense. Some of the prisoners in mine No 9 have been confined twenty years and none of them ever had the semblance of a trial. Manley tells this story in a straightforward way and impresses one with the truth of his statements. He says the treatment as accorded the prisoners is worse than in Siberia.

THE PRICE OF BEEF.

Why It Has Risen and the Reason It Should Not Be High.

Referring to a letter addressed him by Secretary Morton recently, directing an investigation into the causes in the rise in price of beef, Dr. Salmon, chief of the bureau of animal industry, has made a brief statement to the secretary. After quoting the Chicago prices of dressed beef and shipping steers since January 1, Salmon says: "These prices show the cattle on foot are approaching paying figures for growers and feeders. But they don't warrant any such sensational rise of the dressed beef to butchers by the great slaughtering establishments, nor an advance such as is reported on the part of the retail dealers in meat to consumers. The normal rise in the wholesale price of dressed and in the retail prices should be only in proportion to the rise indicated for the beef on foot."

GENERAL NEWS.

A new Democratic daily is to be started in Chicago, with a capitol of $1.000.000.

An editor of Bristol, Conn., committed suicide on Monday. He was probably making money too fast, and couldn't stand prosperity.

The religious garb bill will become a law. It will be amended so as to put the penalty on school boards employing teachers who wear religious garbs, instead of on the teachers.

A man with uplifted hands and surging to and fro on the top railing of the West Market street bridge, crossing the Susquehanna river at Wilkes-Barre was the thrilling sight which attracted several persons walking on the river bank about 10 o'clock Monday morning. In a second or two more the man had jumped from the railing into the waters below, a distance of forty feet. Before a boat could be procured the man went down for the last time and the body was carried down stream. The name of the suicide is not known.

LEGISLATIVE BOOK AGENTS.

A Lively Scramble in the House Over School Publications.

The House devoted practically the entire evening session on Monday to the discussion over the bill providing that school books shall not be changed more frequently than once in five years, and judging from the expressions used by the members in the debate, every other person on the floor was a book agent. One side said the American School Book Trust was for the bill, and the other said the trust was opposed to it, and the entire debate consisted largely of charges and countercharges.

The bill, as originally taken up, provided that books could not be changed for five years from the passage of the act, and then only at regular intervals of five years. As it eventually passed second reading it was so amended as not to apply to books now in use, but that when they were changed under the three year provision of the old law, they could after that be changed only once in five years. The changes are, however, not limited to the regular five-year periods, but the books may be changed at any time after they have been five years in use.

Mr. Herzog, of Berks, opposed the bill because he thought it contained a "snake," and besides he did not think a law of this kind necessary, as the different school boards could regulate the purchase of text books in a manner satisfactory to their own districts.

Mr. Murphy, of Westmoreland, termed it a vicious bill, and he wanted to dispel the impression gone out that the country members favored this bill. They did not favor it, and when a vote was taken on it that could be ascertained.

Mr. Schwarz, of Monroe, said that if the School Book bill passed the people would be at the mercy of the Book Trust.

Mr. McClain, of Lancaster, read a dispatch from the School Board of the city of Lancaster, where they held a meeting, protesting against the passage of the bill. He was against the bill, he said, because there was a "snake" in it, and a person had only to read between the lines to discover it.

Mr. Burrell, of Mercer, was of the opinion that it was a good bill, and should pass.

Mr. Talbot, of Chester, was in favor of the amendment offered by Mr. Phillips.

Mr. Lawrence, of Washington, opposed the bill for the reason that the school boards were against it. The Phillips amendment was agreed to as follows: "Providing that no change shall be made for five years from the adoption of any book or books." The bill passed second reading as amended.

IN MEMORIAM.

WELLIVERSVILLE, Pa. April 15 '95.

Lines on the death of Caroline, wife of Eri Ikeler, who died March 21st, aged 62 years, 11 months, and 26 days. The funeral services were conducted at the home, by her pastor Rev. H. B. Straub. The deceased was a member of the M. E. Church, and had chosen for her text Romans 12-18 "If it be possible, as much as lieth in you, live peaceably with all men." The discourse was both kind and encouraging. The different hymns which had been her choice through life were sung with thought and feeling that reached the heart of many. The family have the sympathy of their many friends, in this, their sad bereavement.

Borne softly o'er threshold was Mother dear,
To the children and husband to all so near,
Turning in their silence with tear and sigh:
Giving the last look which means Good-by.

Down the lone grave, which seems so deep,
The casket is lowered with a memory sweet:
The precepts of her life, which will ever seem nigh,
Yet with hearts still sobbing, "can it be Good-by."

But Jesus will meet her with a smile so bright,
And claim her his own where there is no night:
With a hope that we cherish to meet on high,
And may it ne'er prove to be a Good-by.

The words of "Our Mother" as o'er them we read,
And viewing the sweet lilies which at her feet spread,
May these tokens of love prove a blest tie,
That will bind us to heaven with not a Good-by.

The vine, which encircled her side and brow,
And the roses bespeak that soon, later, or now,
That we from our health may pine and die,
May the language of our hearts be a happy Good-by.

The memory of our sister, will ever remain,
To one, and to all it is just the same,
Around God's throne may we meet on high,
And shout the Hosannas with no Good-byes. A FRIEND.

Spring Medicine

At this season, more emphatically than at any other, we should build for the future.

When Nature gives vitality to field and wood, there should be the harmony of renewed life and energy in our physical systems.

But, on the contrary, we find ourselves weak, dull, tired. This is because in the winter we have been housed-up in poorly ventilated offices, homes and shops, our blood has become thin and impure, and is unequal to the demand of the body for more life, more vigor, more energy, more strength.

Nature imperatively cries for help!

Where is it to be found?

Logically enough, in a good Spring Medicine, like Hood's Sarsaparilla, the great blood purifier.

This preparation has proven in many years of test that it supplies the demand as nothing else can

So easy to take and so readily assimilated, the purifying, vitalizing and enriching elements of Hood's Sarsaparilla—combined from nature's own storehouse of vegetable remedies for human ills, pass into the stomach and are then silently but certainly taken up by the blood and sent to every organ and tissue of the body.

The effect is often magical.

The weakness is soon driven off, that tired feeling disappears, the nerves are built up, the stomach resumes its tasks even greedily, the appetite becomes as "sharp as a whetstone," and the whole man feel "as made anew."

The wonderful cures of Scrofula, Salt Rheum, and other dreadful diseases prove the great curative, blood purifying powers of Hood's Sarsaparilla.

You undoubtedly need a good Spring Medicine. Take Hood's Sarsaparilla, the great blood purifier.

Hood's Sarsaparilla

The statements in the testimonial below are familiar facts to the immediate friends of Mr. Geo. A. Zirkle, school teacher, of Mt. Horeb, Tenn., very well known throughout the county, where he was born and has always lived. It illustrates the wonderful power of Hood's Sarsaparilla over all diseases of the blood. Read it:

"I believe in Hood's Sarsaparilla. I will tell you why. I have suffered from inherited scrofula from childhood. When 37 years of age my eyes became

Strangely Affected.

I could not read after sunset, and when I would close my eyes I could not open them; but on whichever side I lay on that side I could open my eye. This condition continued about two years, and was succeeded by an intolerable itching all over my body and limbs I had to have my little boys take shoe brushes and scratch me. It was dreadful. It continued a month and was followed immediately by a tumor in the right side of my neck as large as a small egg. I took physicians' prescriptions till I lost hope. In the meantime the tumor changed its place to the immediate front of my neck, suppurated and was followed by others, till six had formed and broken.

"Finally, three years ago, another large tumor seated itself on the point of my collar bone and in six months another half way back on the bone. Both of them soon began to discharge and continued to do so till about seven months ago. I tried everything, including prescriptions. I was often so weak that I could scarcely walk and my mind was so confused that I could scarcely attend to my business (school teaching). I was utterly discouraged. And now my story draws to a close. I began the use of Hood's Sarsaparilla a little less than a year ago, and took five bottles. When I began I had no faith in it. In less than 3 months

Both the Sores

on my shoulder were healed; I was cured of a troublesome catarrh; and scrofulous habit has steadily grown less apparent. I weigh more than I ever did in my life and am in the best of health considering my constitution. Do you wonder that I believe in Hood's Sarsaparilla? I can do no less than recommend it everywhere." GEO. A. ZIRKLE, Mt. Horeb, Tenn.

"We have used Hood's Sarsaparilla for our little boy, who had a running sore on one of his limbs. He had suffered from it for one and a half years He took seven bottles of Hood's Sarsaparilla and the sore is all healed and he is now well. Hood's Sarsaparilla cleansed his blood and cured him." E. B. JOHNSON, Bridgewater, Iowa.

Scrofula Eradicated.

"I am a great sufferer with blood trouble. I have taken several bottles of Hood's Sarsaparilla and find it the best medicine I ever saw for scrofula humors and blood poison. It strengthens the system and drives away that tired feeling. No one knows the good Hood Sarsaparilla will do until it has been faithfully tried." LAURA M. LAWTON, Spragueville, New York.

Sores On Neck and Arms.

"Last spring I had sores come on my neck and arms, owing to bad blood and a run down system. My physician told me to get Hood's Sarsaparilla and take it to purify my blood. After taking three bottles I was cured. It is an excellent spring medicine." MRS. ANNA DITZLER, New Danville, Pennsylvania.

SOME THINGS THAT BLOOMSBURG NEEDS.

—Money.
—Fewer dogs.
—A smaller debt.
—An electric railway.
—An electric fire alarm.
—Its own electric light plant.
—Free water for street sprinkling.
—No loafers on the street corners.
—A better road to the river bridge.
—Some one who can tell who owns Oak Grove.
—No demand just now for any more doctors.
—Town orders worth a hundred cents on the dollar.
—Less promenading by young girls on the street at night.
—Some kind of a manufacturing establishment at Irondale.
—More tenement houses to accommodate our increasing population.
—Good pavements everywhere, so that there will be no more damage cases.
—A public park that is a park, and that is not kept merely for base ball purposes.
—A new Methodist Church. The old one is entirely too small for the congregation.
—More men who are willing to put their money into new enterprises, and fewer to oppose everything in the way of progress.
—Free mail delivery. There is a difference of opinion on this subject. Free delivery means two cents postage on all town letters.
—No more business places until there are more new factories. There are too many people now who are selling goods, in proportion to the number of buyers.

COURT PROCEEDINGS.

Court was held on Wednesday, April 24th, at 9 o'clock a. m., Judges Ikeler and Millard on the bench.

Bottling license of F. J. Hanrahan of Catawissa, transferred to Hanrahan & Lora.

Sale of real estate of Jacob Andes, deceased, ordered.

C. C. Evans, executor of John Hunt deceased, vs. Susanna Hunt. Bill in equity filed, injunction granted, hearing fixed for May 6.

I. K. K. Laubach appointed guardian of Nellie Kline, minor child of Mary M. Kline deceased. Bond filed and approved.

Petition for specific performance of contract, Alice M. Karns deceased, to Nellie A. Kline, filed. Specific performance decreed.

Sarah E. Robinhood appointed guardian of Frank Ellis Fedder, minor child of Henry L. Fedder deceased.

In the matter of the petition of H. A. M'Killip, receiver of Bloomsburg Iron Co. Rule continued to May 6.

Estate of John C. Myers. The administrator is ordered to pay over the fund as distributed by the auditor.

Houseknecht vs. Hulme, rule continued to May 6.

In the election of Poor Director in Conyngham and Centralia Poor District. Rule granted on the respondents to show cause why an order shall not be made requiring a full and complete reply as by said demurrer and petition prayed for, returnable on May 6.

In the matter of Rev. John L. Miller vs. Rev. William Minsker et. al. Plaintiffs enjoined and restrained from interfering with the defendants in Kile church charge, in occupying said church in Sugarloaf township, on each alternate Sunday beginning May 5, 1895, for the purposes of divine worship, &c.

MRS. D. W. ARMSTRONG.

Rebecca, wife of David W. Armstrong, died at her home on Wednesday afternoon, aged 65 years, 8 mos. Although her health had not been good for some time past, she was able to be around, and on Sunday morning last attended the M. E. Church, of which she had long been a devoted member. On Sunday afternoon she was seized with illness, and continued to grow worse until death came. She was an excellent christian woman. Her husband and three sons, John, Charles and William, all of this town, survive her. Her maiden name was Robbins, and she was born in Hemlock township, and was a sister of Mrs. Geo. Kressler, and Mrs. Christian Ernest.

The funeral will be held on Saturday morning at 10 o'clock at the house.

Cut back the rose bushes so as to get more new wood. They can stand considerable shortening and will be benefited thereby. Rose bushes will not thrive on grass plots. They must be on rich land and kept clean of grass and weeds, while the soil should be loosened slightly on the surface occasionally. They should not be cultivated too much. Simply keep the ground clean.

E. J. Brown began sprinkling the streets on Thursday morning. His sprinkler has been newly painted. Last year the Water Company made no charge for water, but this year they have fixed the price at sixty dollars. Considering the price paid by the town for water for fire purposes that is never used, the company ought to permit free use of the water for the principal streets.

A PRETTY WEDDING.

Dr. Harry K. Frontz Takes Miss Laura J. Sheldon as a Life Partner.

Wednesday evening, 17th inst., at 8:30 o'clock, Dr. Harry K. Frontz, of Montgomery, and Miss Laura J. Sheldon, of this place, were joined in happy wedlock at the residonce of the bride's father, Mr. Edwin Sheldon, on South Main street. It was a quiet but pretty wedding. The nuptials were solemnized amid luxury and beauty. The house was profusely decorated with an endless variety of earth's blooming flowers, laurel, spruce, palms, Easter lillies, etc., and boquets of cut flowers. The bride was given away to the man of her choice by her father. She was arrayed in a handsome white silk, and wore some beautiful lilies of the valley, and carried a boquet of Bride's roses and lilies of the valley. Miss Alice Bird, of Danville, was bridesmaid, and Miss Myra Moyer, of Bloomsburg, acted as Maid of Honor. Both wore white and carried morning dawn carnations. Dr. Howard Frontz, brother of the groom, was Best Man. The ceremony was performed by Rev. J. A. Wirt, of this place, and the vow was sealed by the groom placing on the finger of the bride a handsome ring. After the ceremony the bride and groom received congratulations from their many relatives and friends present.

After partaking of refreshments, the happy couple departed for Montgomery, where they will make their future home.

The groom, besides being well up in the profession of dentistry, and enjoying a lucrative practice, is a fine gentleman socially, and will make a true husband in every sense of the word.

Miss Laura J. Sheldon, now Mrs. Frontz, was one of Hughesville's pretty, amiable and accomplished young ladies, who has many friends. She possesses many excellent qualities that must go to make up a wife whom a man could love and cherish.

The visitors from a distance were: Dr. A. P. Hull, of Montgomery; Dr. Walter S. Brenholtz and wife, of Columbia; Dr. Joseph Corson and wife, of Chatham Run; W. H. Schuyler and wife, Milton; Miss Myra Moyer, J. L. and W. S. Moyer, of Bloomsburg.

The many presents received by the bride and groom were useful, handsome and ornamental.—*Hughesville Mail.*

Perjury Under the Marriage Law.

W. R. Coffee, of Weatherly, was sentenced by Judge Craig at Mauch Chunk to one year in the Eastern Penitentiary for perjury under the new marriage law. When applying for a marriage license he swore that the woman he was about to marry was a single woman. It turned out afterward that she had a husband living and that Coffee was well aware of the fact. The woman in the case, Laura E. Fox, alias Laura E. Desch, of Bristol, Bucks County, got six months in the county jail for bigamy.

DIVORCE IN JAPAN.

Causes As Compared With Those of Other co untries

Grounds for the divorce of wives in Japan are reduced to seven fixed causes, in which the most serious incentives are outbreaks of disobedience or temper against a father or mother-in-law; jealousy is next in importance; annoying in any wise the peace of the husband's kinsmen, gossip and over loud talking and quarreling at home, stealing and leprosy are mentioned also as just reasons for legal procedure against a wife. Apparently no question of propriety on the wife's side or provision for her future support are considered and the father always takes the children, which is a plain injustice. On the whole, however, reasons for divorce in Japan are not more frivolous than in many other countries that esteem themselves vastly her superior in point of civilization. In Italy, and South Carolina only of all our States, is death alone the legal dissolution of marriage vows. Our common plea of incompatibility of temper is certainly synonymous with the first four Japanese causes.

In Massachusetts and Mississippi the habitual use of opium permits divorce. In France a wife who, for no apparently good reason, refuses to accompany her husband to the theatre can be brought to the divorce court. In Portugal a wife may not publish her literary work without her husband's consent, and both in France and Portugal a wife can be forced to accompany her husband on any and every journey he takes, provided he does not go beyond the boundaries of the country. Certainly, then, Japan can improve her divorce laws very slightly by studying those of her sister nations, and as a Japanese wife can in turn divorce the husband who thrusts an unpleasant mother in law on her there seems no need of deploring her condition.

Beware of Ointments for Catarrh that contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

Lippincott's Magazine for May, 1895.

The complete novel in the May issue of *Lippincott's* is "The Lady of Las Cruces," by Christian Reid. It gives a later (and the last) episode in the life of that beautiful and gifted Mexican who was the heroine of "The Picture of Las Cruces," in the magazine for February, 1894.

"Martha's Headstone," by Edith Brower, is a strong and touching story, with an uncommon *motif*. "Odds on the Gun," is a stirring anecdote of South Africa, the first of sundry surprising adventures of a war correspondent which will be offered.

"The Heart of the Fire Spirit," by the late Lieut. Alvin F. Sydenham, sets forth one of the many devices of the Indian medicine man. William T. Nichols solves the mystery of "The Ghost of Rhodes House."

In "Effacing the Frontier," William Trowbridge Larned casts a good deal of light on the condition and prospects of the West. Our army, he thinks, will soon be no longer needed to keep the red men in order, and may profitably be stationed in Chicago and other cities to meet the growing danger from anarchists and strikers.

David Bruce Fitzgerald tells what happens "On a Snad Float" at this season. Calvin Dill Wilson presents the first and second courses of "The Menu of Mankind," "High Fliers and Low Fliers" are our native birds, as observed by W Warren Brown.

"The Young Corean Rebel," whose story Haddo Gordon narrates, was the leader of an important movement in the Hermit Kingdom ten or twelve years ago.

In "An Artist's Habitat," W. J. Linton, the well-known engraver, describes some of his belongings. George Grantham Bain writes of "Climbing the Social Ladder" in Washington.

The poetry of the number is by Grace F. Pennypacker, John B. Tabb, Clinton Scollard, and Joseph Wharton.

A Minister's Experience With Heart Disease.

Rev. L. W. Showers, Elderton, Pa.: "For many years my greatest enemy has been organic heart disease. From uneasiness about the heart, with palpitation, it had developed into thumping, fluttering, and choking sensations. Dr. Agnew's Cure for the Heart gave instant relief. A few bottles have rid me of almost every symptom of heart disease. It is a wonder-worker." Sold by Wm. S. Rishton. 6-15-1y.

ARSENIC EATERS.

The Styrians Are Addicted to the Use of the Deadly Drug.

For many years the habit of arsenic eating by the people of Styria, a duchy of Austria, has been known to the scientific world. Travelers who have passed through Styria have come back with reports on this practice, saying that the people of this country were accustomed to taking a white mineral, which was arsenic.

That this was so was denied by many, who said that the mineral taken was nothing more nor less than chalk. There was much discussion over the matter, and the subject proved itself of such interest and importance that scientific societies took the question up and investigated it, and it was pretty well proven that such a usage did exist, but not so widespread as was generally supposed. Many physicians have gone there simply to investigate this practice of arsenic eating. While some of them have found out much about the custom, others have come away no wiser than they went, owing to the secrecy which exists among those addicted to the habit. As it is against the law to obtain arsenic without a prescription from a physician, of course those who do so are anxious to keep it quiet. There are also found among the peasants of Salzburg and Tyrol those who follow the same practice. In these regions several arsenic works are situated, and the only way the employes can stand the poisonous fumes is by taking the drug internally, at first in small doses and gradually increasing the dose until the system tolerates large quantities.

It is probably from these arsenic workers that the custom spread to others, principally to the lower classes, as hunters, wood cleavers, stable grooms and charcoal burners. All forms of arsenic are taken—the pure arsenic, the red sulphide and the yellow sulphide, or orpiment.

The arsenic eaters began with a dose about the size of a pin's head, and increase this amount gradually until they are taking a piece about the size of a pea.

The habit is generally begun at the age of fifteen and continued up to the ages of seventy and seventy-five. The users of hidri, as arsenic is known among the peasants, are generally long lived people, but unless at the age of fifty they commence to gradually discontinue the use of it, they invariably die a sudden death, and the fact that death occasionally occurs from poisoning by hidri eating shows that even the Styrians are not invincible to the deadly effects of this drug.

The reason for this custom is asserted by some to be for their personal appearance, but the fact that the habit exists principally among the male sex disproves this. It is said by the peasants themselves that it is done to make them strong and healthy, and they really are a strong and healthy people.

Enormous quantities of the drug are taken by some of them. In one well authenticated case, the man, a manager of some arsenic works, took daily a dose of twenty three grains, each dose large enough to kill several men unaccustomed to its use. Another strange thing about this case is, the man began it first by taking three grains, an amount which we would consider decidedly dangerous. On several occasions he attempted to leave off taking the drug, but was made violently ill, only to recover on resuming his usual allowance.—*Washington Star.*

A Humorous Fact.

About Hood's Sarsaparilla—it expels bad humor and creates good humor. A battle for blood is what Hood's Sarsaparilla vigorously fights, and it is always victorious in expelling foul taints and giving the vital fluid the quality and quantity of perfect health. It cures scrofula, salt rheum, boils and other blood diseases.

Hood's Pills act easily, yet promptly and efficiently on the bowels and liver. 25c.

ARTIFICIAL COTTON CLOTH.

A Cheap Substitute Made From Wood Pulp In Belgium.

As if the unfortunate cotton planter had not enough to contend with in natural forces, the science of chemistry has been invoked to enter into competition against the great staple. United States Consul Morris at Ghent, Belgium, in a special report to the State Department, at Washington, describes a new process of making artificial cotton which has been remarkably successful, the product being much cheaper than the natural cotton and possessing most of its qualities. The basis is wood pulp, which is changed into pure celulose and spun into thread and then woven into cloth. It resembles ordinary cotton, but is not as strong as the natural product. It weaves and works well, and can be dyed as well as cotton. By coating it with paraffine and passing it over glass a beautiful brilliancy may be given to it. Much greater strength can be imparted by parchmentizing when it acquires a semi-transparency.

A Chicago Trick.

But Somehow the Drummer Couldn't Seem to Make It Work.

"I saw a queer trick in Chicago the other day," said the drummer as he lighted a fresh cigar and pared his nails with his pocketknife.

Of course two or three of the group wanted to know all about it, and he continued:

"One of you let me have a clean $1 bill for a moment. Ah, that's a daisy of a bill—just off the press last week. Now, then, I lay the bill face downward on the floor—thus. The chap who did the trick was not a professional juggler, but he did it with neatness and dispatch. I don't say I can do it myself, but I'll try."

"But what is the trick?"

"Why, I take my knife and cut the bill lengthwise—so. That divides the bill into four equal portions, doesn't it?"

Every one in the group answered that it did, and the drummer gazed at the pieces awhile and said:

"The trick is to blow the pieces together so that the edges will unite. The Chicago man did it, but just how I couldn't find out. Lets see. I will now blow. Ah, they do not unite. I will blow again"—

"What in the Old Harry are you trying to do?" demanded the owner of the bill.

"Why, I'm trying to blow the pieces together," innocently replied the drummer.

"But you can't do it."

"No, I see I can't. The Chicago man did it, but I'm not on to the trick. Here are the four pieces, and I guess you'll have to get a bottle of mucilage and a sheet of paper and paste them together. Awfully cute trick, but I can't do it. Wish I could.

And, strangely enough, the owner of the bill looked at the pieces, and from the pieces to the drummer and back, and then called the drummer a double dyed idiot and walked off with the declaration that he'd like to punch somebody's head.—*Detroit Free Press.*

VALUED ENDORSEMENT.

SCHAGHTICOKE, N. Y.—It is ignorance rather than anything else that makes life miserable, but ignorance of the value of Dr. David Kennedy's Favorite Remedy does not exist in Schaghticoke to day, as a blood medicine and nerve tonic it stands supreme. One of the principal reasons for its popularity comes from the great benefit our fellow townsman, Andrew Sipperley derived from its use. Mr. Sipperley has suffered for years past, with a chronic kidney trouble, frequent bilious attacks, and at intervals with violent neuralgia in the head and face. Up to last fall he rarely knew a well day. At that time his wife who had learned of the good Dr. Kennedy's Favorite Remedy had accomplished, determined to have him use it. In writing about his sickness, Mr. Sipperley says:

"For several years I was subject to attacks of kidney trouble and gravel, which was attempted with most excruciating pain, but since I began the use of Dr. David Kennedy's Favorite Remedy I have had no serious trouble, and my general health is greatly improved. I know of a great many people about here who have used Favorite Remedy, and in every instance benefit has followed. One of the officers of the Albany N. Y. Hospital recently said, in speaking of Favorite Remedy: "I know of its great medical value, and to my knowledge it cures the diseases for which it is prepared."

The great value of Dr. David Kennedy's Favorite Remedy lies in the fact that it dissolves the excess of uric acid in the blood. Such ailments as rheumatism, neuralgia, nervousness, and the sickness peculiar to women all come from this one cause. Favorite Remedy dissolves this acid, thus curing the disease. In cases of scrofula, diabetes and Bright's disease, it has cured where other treatments have failed. 2t.

INCREDIBLE.

WIFE: "I've just been reading of the suicide of a man because his wife said something he didn't like. They had been married over twenty years, too."

HUSBAND: "I don't believe it."

WIFE: "Don't believe he committed suicide?"

HUSBAND: "No; don't believe they had been married twenty years."

Important Facts.

If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

A Model School of Industrial Art.

The Pennsylvania Museum and School of Industrial Art, Philadelphia, is an institution entitled to the highest commendation for the excellent work that it is doing toward the proper advancement of American industries. In not a few of its features, it stands as a model for imitation in other industrial centres of the country. Special courses are provided for teaching designing for all varieties of textile fabrics, and its practical application to loom work. As a complete course in its theoretical and practical utility we do not hesitate to say it is without an equal in America. A school of this kind is of the highest importance to the manufacturing community, and there should be no reason or impediment against its being duplicated in Boston, and improved upon, if possible. Young men of New England should not feel obliged, as is now the case, to go to Philadelphia to learn the art of textile fabrication, but should be able to secure the necessary instruction under competent teachers at a place nearer to their prospective field of usefulness.—*Boston Journal of Commerce, March 26.*

Tax Burdens Borne by Cuba.

It is little wonder Cuba frequently revolts against the government of Spain. The island people are taxed very heavily for the support of the foreign government, and get little in return through the Government Taxation without representation has been a fruitful cause of resolution and rebellion in all times.

In all Spain takes about $30,000,000 a year out of Cuba, which, in addition to the cost of its own government, is a heavy burden. There is a stamp tax on all drafts, checks, promissory notes, bills of exchange and legal documents. Hotels are taxed 5 cents a day for every guest. Merchants must pay $1 for the first page of their day books, and 15 cents for each additional page. The tight little island also charges $1 admission fee for every passenger that lands on its soil, and exacts another dollar from him before he can get out again.

Such exactions are outrageous. If they were necessary to maintain the government machinery of the people they might be borne with good will, but when nearly all the revenues are exported to Spain to support an army to keep Cuba in subjection it is a galling hardship. It will be a piece of good fortune for the Cubans when Spain becomes involved in some international complications with one of the great powers that will secure the independence of Cuba.

TO CALL PAGES BY ELECTRICITY.

Members of Congress Will Signal No Longer by Clapping Hands.

There will be one noticeable change when the next Congress meets at Washington. Ever since Congress has been in existence the members have called the pages by lightly clapping their hands together. Electricity is now to be invoked in the accomplishment of this object. When the Fifty-fourth Congress meets, every member will find a button on his desk, which will require only a slight pressure to insure the coming of a page. An electric wire will be connected with a call board similar to those used in hotels.

The Everyday Man.

"And so you are not married yet?"

"No."

"Engaged?"

"No."

"Expect to be?"

"No"

"What's the matter?"

"Well, papa says that my husband must be a keen and experienced man, of good health and good habits. Mamma says he must be frugal, industrious, attentive and moral, and I say that he must be handsome, dashing, talented and rich. We are still looking for him."—*London Tit Bits.*

Equal to the Occasion.

A Yorkshire farmer, having a horse to sell at a fair, sold it to an army contractor. Meeting him at the same fair the following year, the army buyer walked up to the farmer and said indignantly: "The horse I bought of you was a thorough fraud. It was no use for the army." The dealer was nowise abashed, but replied, "Well, try 'im fort' navy!"—*Philadelphia Record.*

She Would Neither Paint nor Powder.

"I positively will not use cosmetics," said a lady to the writer, "yet my complexion is so bad that it occasions me constant mortification. What can I do to get rid of these dreadful blotches? "Take Dr. Pierce's Favorite Prescription," was my prompt reply. "Your complexion indicates that you are suffering from functional derangements. Remove the cause of the blotches and your cheeks will soon wear the hue of health. The 'Favorite Prescription' is a wonderful remedy for all diseases peculiar to your sex. Its proprietors guarantee to return the money if it does not give satisfaction. But it never fails. Try it." The lady followed my advice, and now her complexion is as clear as a babe's, and she enjoys better health than she has for many years.

To permanently cure constipation, biliousness and sickheadache take Dr. Pierce's Pellets. Of dealers.

The Centralia Assessments.

In the matter of the application for a re assessment of the Centralia borough, which is now up for consideration before the Columbia county courts, a new argument has developed. No ward assessors were elected, but simply registry assessors for each ward. David Walsh was elected borough assessor, which office was legislated out of office by dividing the borough into wards. As the matter now stands Centralia has no legal assessor, although Mr. Walsh is going ahead with the assessment. The matter was continued until April 24th. If Mr. Walsh makes the assessment it will be illegal, and he will be entitled to no pay therefor.—*Ashland Advocate.*

BENTON.

A number of our people attended the wedding of J. F. Wright and Miss Hattie Cole, at Harveyville last Thursday, and presented them some very costly presents.

Mrs. J. B. McHenry and Grand Pap McHenry, visited friends and relatives here last week.

C. E. Benton and wife spent Sunday with friends at Mountain Grove.

A large number of trout have been caught here already, and by the number that is constantly fishing many more will be landed.

Alfred McHenry has opened and has on display the finest line of mercantile goods ever brought to this section.

Geo. Hartman who has been suffering with pneumonia for the past two weeks is rapidly recovering and will soon be able to be out again, as of yore.

H. O. Harvey was assisting at the McHenry House a few days last week.

Sam'l Lemons is kept busy delivering, and taking orders for his clover seed. He has a large trade in this section, which he has built up rapidly.

J. W. Mann of Bloomsburg was up in this section last Friday, looking up the bicycle trade.

C B. Ikeler has the painters at his cottage on Main Street, which improves its looks, and gives it a neat and cozy appearance.

H. F. Kelchner, proprietor of the Exchange Hotel, has been confined to his room with a severe cold for the past week, but at this writing is rapidly recovering, to the pleasure of all of his friends. We hope he will soon be able to be out and around again as usual.

J. M. Kline is still handling organs and sewing machines, and expects to remain with us awhile yet.

B. S. Keller of Millville was a Benton visitor Thursday of last week.

B. G. Keller, our wide awake stove dealer, is having a veranda added to his house, which improves its appearance very much.

Elwood Knouse is shipping his mine ties, now fast as he can load them; he has several car loads yet on hand.

J. F. Wright expects to go to house keeping very soon now. in Sam'l Hartman's House on Creek Street.

Dogs will be scarce here next spring, as they will be assessed two dollars. A good move this is, as dogs are too plenty here.

Grand Pap McHenry is occupying his old arm chair at the McHenry House at present.

BERWICK.

George Clemens has moved his tonsorial business from the Berwick house into the room on Front Street formerly occupied by Miss Sallie Rough in the confection business. The room has been handsomely renovated and repapered so that it presents a fine appearance. It is one of the neat and tidy places of Berwick. George has built up a fine trade, is running a flourishing business. His numerous friends wish him his old time success and there is but little doubt that he will have it.

R. R. and H. P. Freas of Scranton and Dr. C. L. Freas of Philadelphia have been spending several days of our fine weather among friends in Berwick. R. R. Freas is of the firm of H. L. Freas and Son who are doing a large business—feed mill business—in Scranton. H. P. Freas is engaged in the milling business in Scranton.

David Baucher, one of our old citizens, mason and house builder, is largely engaged in supplying our community with fine paving stone. They are of excellent quality and find ready sale.

Rev. Dr. Rittenhouse of Philadelphia preached an excellent sermon in M. E. Church last Sabbath morning.

Rev. Thompkinson, the pastor, wears well and as pastor and preacher he is symmetrically good. His sermons command good attendance and they are of a superior character. He would be acceptable in any pulpit of the state.

Mr. Fairchilds, two miles below town, has gone into the dairy business strongly; has 19 cows of excellent breed. Mr. Fairchilds is one of the enterprising farmers of the county. No one can show better farm buildings, and more extensive fruit trees.

Well Mansfield is building a large store room at upper end of town for lumber, grain, farm implements &c.

Mr. Dietterick has moved from Nescopeck to Berwick and has joined Wm. Ross in the blacksmith business. Dietterick & Ross are running a fine blacksmith trade. This is a new firm. Their many friends wish them success.

Poisoning dogs and burning buildings are considerably in vogue in our town. It doesn't speak well for the place. If this dog poisoner or incendiary is found we will hang him up to season for eternity.

Til Mohorter & Son have been doing some lively painting and papering in Nescopeck this spring. Several houses and a hall shows their handiwork. Skillful artists are always in demand. They have a large share of business during these hard times with fine prospects all summer.

Cooney Moore has opened up the blacksmith shop owned by C. C. Williams with the custom and prestige of this old stand. He is an accomplished blacksmith and is turning out fine work.

H. B. Wolf is closing out his meat market. There is a chance for some body to enter into the meat business in Nescopeck.

We take pride and pleasure in our marble Works of Kurtz & Son. To visit them is to realize what we say. This firm gets contracts from Philadelphia, Baltimore and New York and other places adjacent. A contract from Wilkes-Barre of $10,000 they have just received. Their marble the best that can be produced and the workmanship and sculpture a matter of art.

Hudson Kline proprietor of Benton hotel, has been visiting his numerous friends here.

Roland Reed in his comedy, The Politician will be here on May 8th. This is a compliment he is paying to his friends. Miss Isadore Rush, born right here in this community is the leading figure in this grand show that has met with so large success in the states. We predict a large attendance of this community on May 8th in the Berwick Opera House.

To the People of Bloomsburg.

BLOOMSBURG, April 22, 1895.

At a meeting of the Sanitary Committee (appointed by the President of Town Council for 1895) it was decided to call the attention of property holders, tenants and others to Section 5 of Town Ordinanee No. 36 which reads thus.: "When the Sanitary Committee shall deem any privy, cess pool or house drain located on any property fronting on any street on which a public sewer shall be opened for use, to be a nuisance or a danger to the inhabitants of the house, or others, and if in their judgment the said nuisance cannot otherwise be abated, the said committee shall direct the superintendent of sewers to cause written notice to be given owners or tenants, forbidding the further use of the same and requiring the house to be drained by public sewer."

There are other sections of ordinances which gives us power to investigate premises and make reports. That good health may be preserved in our Town, we invite and insist that all persons clean up cellars, out houses, stables, pig pens, chicken yards, &c.

A Clean Collar

One that you can keep clean all the time—a collar that does not wilt when you get over-heated; that does not fray on the edge, or tear out at the buttonholes, and can be cleaned by simply wiping off with a wet sponge or cloth. These collars and cuffs are made by covering linen collars or cuffs on both sides with waterproof "celluloid," thus giving strength and durability. They are the *only* waterproof goods so made, and every piece is stamped as follows:

TRADE CELLULOID MARK.

Ask for this, and refuse to take any imitation if you expect satisfaction. If your dealer does not keep them, send direct to us, enclosing amount, and we will mail you sample. Collars 25 cts. each. Cuffs 50 cts. pair. State size, and whether stand-up or turned-down collar is wanted.

THE CELLULOID CO.,

It isn't much trouble for a really healthy man to be good humored. Jollity and exhuberant health are a proverbial combination. The hearty man who is always laughing doesn't have any trouble with his digestion, It has been said that laughing makes people healthy. The truth is that health makes people laugh.

There isn't any other thing so essential to health as regularity in the action of the bowels. Most all sickness starts with some derangement of the digestive functions. Good digestion means good, pure blood, and that means strength. Once let the bowels become clogged with refuse matter, and the whole system is deranged. Impure, poisonous matter gets into the blood and plants the seeds for all sorts of sickness.

Whenever there is a stoppage of the intestinal action, help should be given immediately. Usually a mild, gentle laxative is all that is necessary. A violent, wrenching, griping cathartic is never needed. Dr. Pierce's Pleasant Pellets are the most pleasant and successful remedy for occasional or chronic constipation, or costiveness. They are tiny, sugar-coated anti-bilious granules that even the smallest child can easily take. They act in perfect accord with nature and produce no griping or other disagreeable feeling. They should be taken at the first indication of digestive trouble. They stop sour stomach, belching, "heart-burn," flatulence and sick headache. They *cure* constipation permanently. You can stop taking them after the bowels are thoroughly regulated. Their help *lasts*. You do not become a slave to their use as with other pills.

RUPTURE

is one of the very common ailments of mankind. It is usually the result of hard work or over exertion, and is oftentimes the legacy of fevers or severe attacks of sickness which leave the abdominal muscles in a weakened condition allowing the protrusion of bowel. It is

NO DISGRACE

to be ruptured, but it is very annoying and sometimes dangerous. Until recently it was thought to be incurable without an operation but thanks to scientific research

ITS CURE

is now ABSOLUTELY CERTAIN in ninety out of a hundred cases where the rupture can be returned. I give a written guarantee to cure or no pay. No knife, no inconvenience, no operation, no detention from business and no truss to annoy you afterwards One visit to my office weekly for from four to eight weeks is usually sufficient for the worst cases.
